FASStrack Asia, Summer School

Program Overview:

FASStrack Asia started in 2013 and was developed with the rigorous academic standards which NUS is known for. You will be attending classes held in a dynamic and multi-cultural learning environment with NUS and international students from various universities from all over the world.

FASStrack Asia comprises courses from the Faculty's Asian Studies Division, Humanities Division and the Social Sciences Division. Courses are focused on Asia, and some of these courses will feature a 5-9 days' field trip to the country of study. Our Centre for Language Studies will also offer relevant Asian language courses that will complement the field trips for a comprehensive learning experience and in-depth cultural immersion.

You can read up to 2 courses, including one that offers an extended overseas field trip. Other courses may also offer local day trips in Singapore or to nearby overseas location over the weekend in order to facilitate experiential learning outside the classroom.

FASStrack Asia will be based at the University Town (UTown for short) at NUS. This recent campus expansion of NUS is a high-tech, modern educational hub that integrates environmental-friendly building features with the learning, social and cultural aspects of the NUS community. Besides classrooms, UTown is also well-equipped with IT and multimedia facilities at the Education Resource Centre, seminar rooms and study clusters, and a world-class research and innovation hub. For recreation, there are also sports and performing arts facilities, as well as a wide array of dining and retail outlets. Students staying on-campus at the residential colleges can live, study and play in NUS as part of an exciting summer programme experience.

Method of Assessment:

Courses are graded based on assessments and class participation, and there are no final exams.

Program Duration: June 27- July 8, 2022 (2 Weeks)

Estimated Program Cost: (in program host country currency with conversion to US\$)

The programme cost for the summer programme is as follow:

450 GBP ≈ 3960 RMB

Program Theme:

Writing the city

Program Outcome:

The course is a practical, one-week creative writing course that enables students to develop their own original literary work in response to the urban environment. We contextualise the writer in the city by examining such concepts as the literary flâneuse as urban explorer and the poetics of place, as well as exploring some of the narratives of the built environment and the ways in which the wild takes root in the city. Students learn about the wider context of urban and experimental writing through seminars, workshops and the production of literary non-fiction, fiction, poetry or hybrid work.

The Creative Writing programme at University of Glasgow is the oldest and most prestigious in Scotland, with a strong ethos of encouraging a supportive community of writers and an openness to form and genre.

Social programme

The academic course will be accompanied by a varied social programme. Students can join the live events which will be a mix of interactive and informative sessions. These will be recorded so if a student can't make it to the live event, they will be able to enjoy the recording at a time that better suits their schedule.

Preferred method of teaching system:

Online TBC

Method of Examination:

TBC

Method of Assessment:

Summative assessment methods:

Portfolio = 100%

Description of summative assessment:

The portfolio assessment consists of one of more pieces of creative work (3000 words or equivalent for poetry or hybrid forms) plus critical commentary of 300 words: 100%

Formative assessment and feedback:

Extensive tutor feedback and peer critique will be given on at least one piece of work in progress in workshop classes. Each student has a dedicated 30 minute tutorial at which to discuss portfolio submission.
